This photograph is especially heartwarming for me. First, it's kind of fun to see myself three months old, the center person. This is a movie image that was extracted from a 16mm film movie. And third and probably most important is it represents four generations of Voight, Holzrichter and Joslin family.

VIVID-PIX®

Top Quality Digitizing & Organizing

Large Project Experts!

- Photos, albums and scrapbooks from 600 to 9600 DPI, returned in chronological order and ready to use and share.

- Videotapes inventoried and returned as editable MP4 files.

- 8mm and 16mm film movies in stunning 4K resolution.

- Proprietary HDR slide scanning at 4100 DPI.

- We are experts in organizing large photo and movie collections. Send us the boxes and we figure it out.

We Inventory	We Inspect	We Digitize	We Quality Check

You receive a high-quality digital collection in chronological order – ready to use and share.

VIVID-PIX® Education

Organize

Learn step-by-step methods to organize your photo collection using techniques developed by the 1,200 member The Photo Managers.

Share Stories

Discover how to create connectional narratives which capture the past while enjoying reminiscing with the people you love.

Reminisce

The afflicted and caregiver connect by sharing memories resulting in a reduction of isolation, loneliness, depression, and socialization improvement.

Reminiscing provides health & social benefits

Professional Course

Learn how to help others capture and share the moments that matter most. Designed for group use, this course covers how to choose photos to help tell and elicit stories, use guided reminiscence to elicit stories, increase recall, and hone storytelling skills.

NIDE Professional Course

Designed for paid and unpaid caregivers, this certificate instruction creates connection. Joshua is an award winning memory care program developer, researcher, author and Chair of the Board for the National Institute for Dementia Education.

Connect

Multigenerational relationships are built by virtually connecting older adults to younger adults.

Share Stories

Life events and photos are discussed, culminating in a keepsake Memory Cache Book.

Reminisce

The book initiates connection with the older adult's social circle resulting in improved long-term well-being.
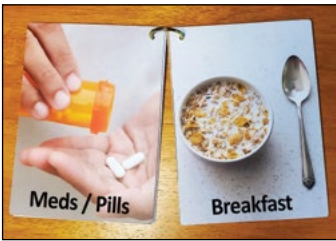

Photos create conversation & connection
